Council Members:

Mr Koh Soon Chuang
 Er Yee Poh Kin
 Ms Chelsia Ruth Wong
 Mr Tong Hong Haey
 Er Victor Ho
 Mr Michael Mok
 Mr David Goh
 Ar. Chan Kok Way

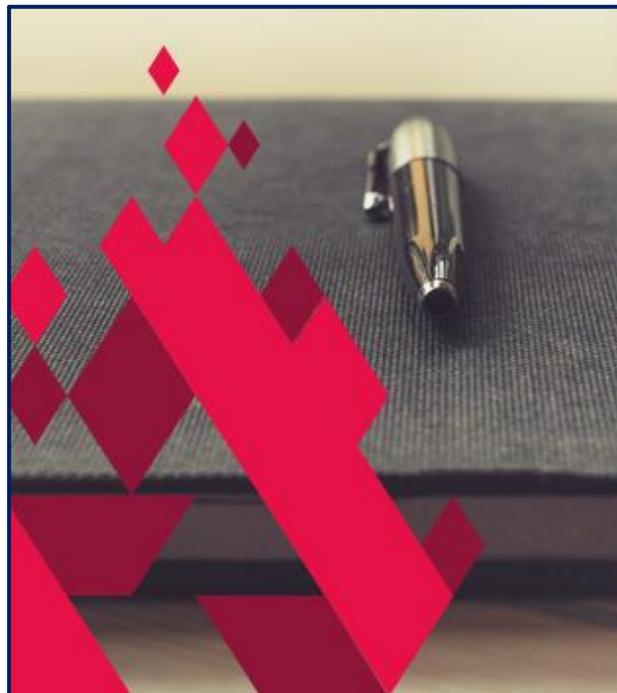

A WORD FROM THE EDITOR

As we roll into the last quarter of the year, it is time to take stock of all of the things we need to complete before the new year comes around. For some, the news of Singapore opening up the VTL travel lanes is welcomed news for both business and leisure travelers. For others, it may be a time to consider thinking about further technical training and professional qualifications.

For our fellow members, have a think about upgrading your membership. It is in many ways recognition of your professional journey and years of experience. Our council members are available to discuss on how to put together a Continuing Professional Development (CPD) record or how to write an Initial Professional Development (IPD) report.

Fire Investigation Case Studies Sharing Dialogue

16 September 2021, 3pm to 4pm

ONLINE SEMINAR

In the spirit of continuing professional development, the IFE's Fire Investigators Special Interest Group hosted an online seminar on Fire Investigation Case Studies. The seminar was delivered by Mr David Townsend who is the Principal Fire Investigator for Andrew Moore & Associates (Singapore) Pte Ltd.

Mr Townsend took us through a case study of a fire incident which he was involved with previously, giving his insights on physical forensics and understanding on the liabilities of the case study.

Due to privacy and confidentiality as this was an actual case study, screen shots of the actual session were not permitted to be shared/published.

The seminar was attended by 39 participants from IFE.

The image is a screenshot of a presentation slide for an online seminar. At the top right, there is the IFE logo (Institution of Fire Engineers Singapore). The main title is "Fire Investigation Case Studies Sharing Dialogue" in large, bold, red font. Below the title, the date and time are listed: "16 September 21 at 3.00pm to 4.00pm". At the bottom left, there is a decorative graphic of red and white geometric shapes. At the bottom center, the website "ife.org.sg" and the tagline "Illuminating a fire safe future" are displayed. At the bottom right, the IFE logo is repeated.

Online Seminar on Solar Panel & the DC Danger Zone - Reducing Risk Factors for First Responders

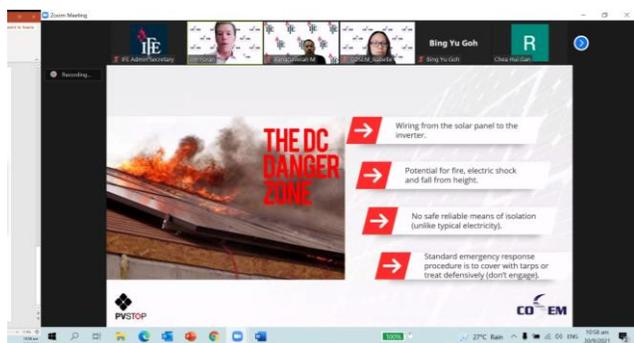

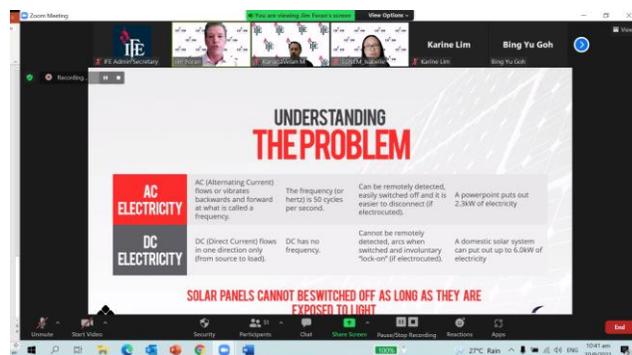

30th September 2021, 10:30am to 11:30am

ONLINE SEMINAR

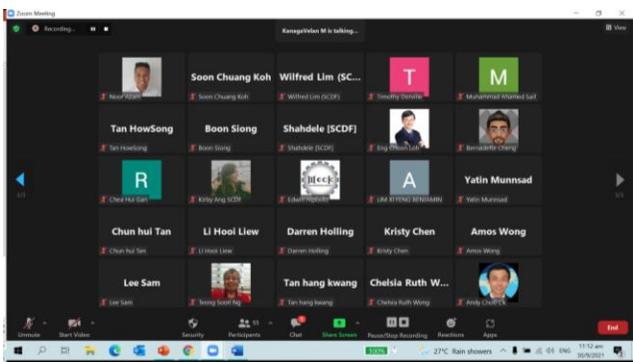

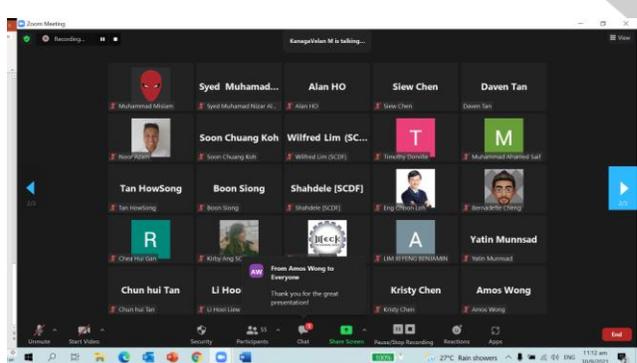

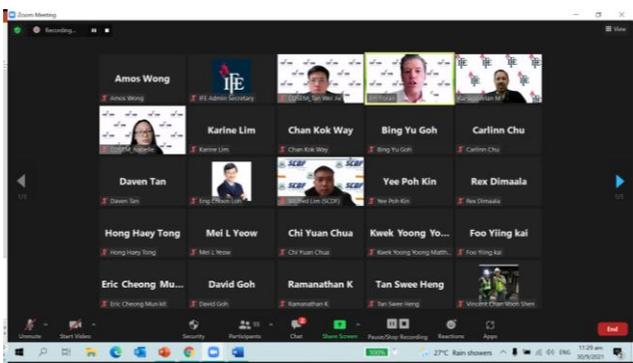

On 30th September 2021, IFES's Emergency Services – Special Interest Group lead by Mr Kanagavelan Munusamy in collaboration with our MOU partner, COSEM, conducted an online seminar highlighting the fire risks associated with solar panel by understanding operational aspects and the solutions to solving fire risks.

The seminar was presented by Mr Jim Foran (COSEM), who spoke on the various strategies and risks faced by fire-fighters when fighting fires in solar panel systems.

The seminar was attended by 55 participants from IFE.

EVENTS & NEWS

Maintenance of Fire Protection Systems - Training Course for Certificate of Competency

7 October to 9 December 2021 (Ongoing)

Course Information

This course is intended to provide course attendees with comprehensive understanding on the operation, maintenance, inspection and testing procedures of fire protection systems in buildings.

Target Audience

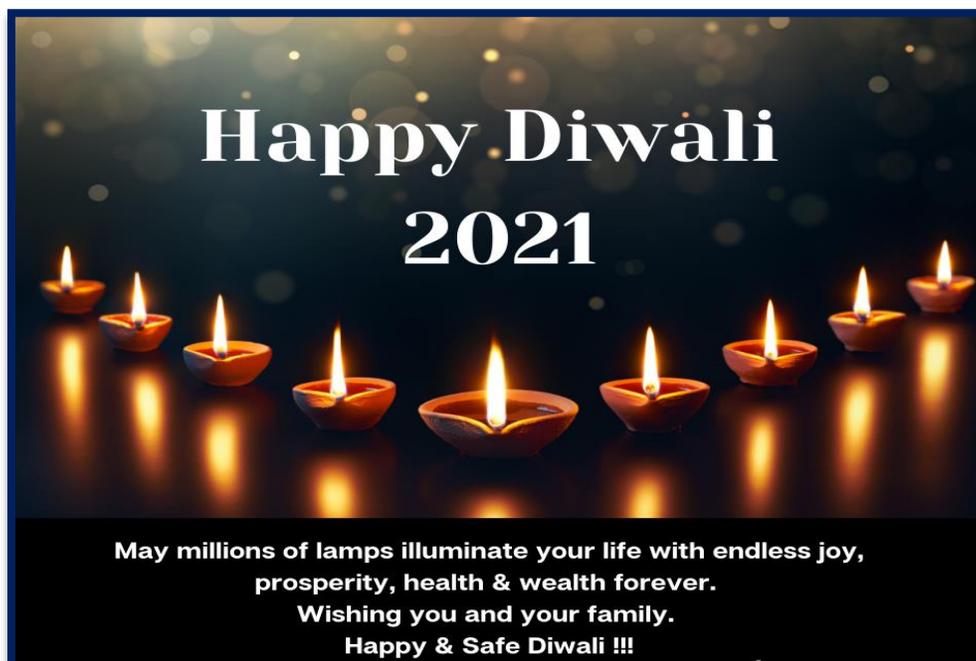

Personnel involved in operating and maintaining protection systems in all types of buildings.

Course Details

The course will be conducted by qualified and experienced personnel from IFE Singapore. The training and the exam will be conducted in the English language.

Theory sessions and examination shall be conducted in a classroom setup at a designated venue. By default, theory examinations shall be conducted in a classroom setup to allow for more optimal learning. If there is a need to shift the theory classes online as a contingency, we will notify participants via their email address.

Practical sessions shall be conducted at the designated venue stated in the brochure.

Published quarterly by the IFES, we are always looking for members contributions. To provide any articles or feedback, please contact – admin@ife.org.sg
